

# The Struggle

I love being active! So naturally I have a busy schedule. I am always rushing from one practice to another. To be on time for anything is a major struggle - especially when you're riding the bus!

# Plan A

I recently got provisional licenses so I should be able to get from one practice to the other in no time now, RIGHT? WRONG!!! I have a big problem, I don't have a car! In order to purchase my first car I must sit down and create a plan or budget on how I will be able to afford a car. But first I need to find a job ....

# The Working Girl

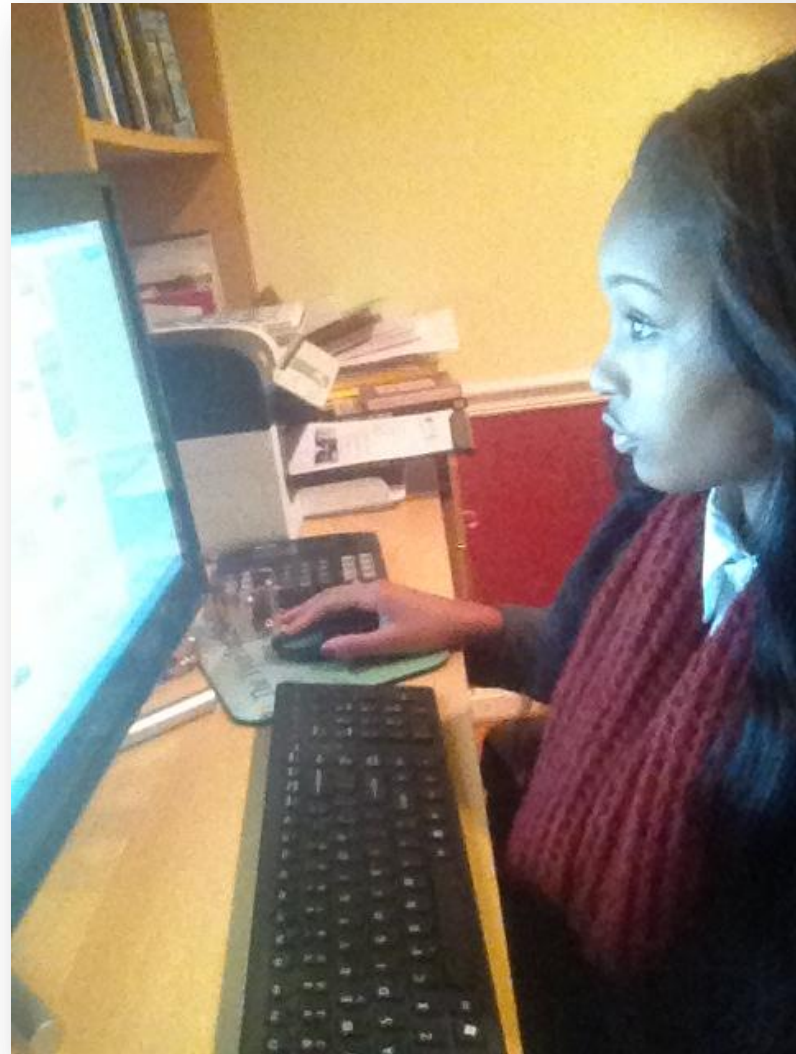

I found a job at a local fast food restaurant so I now have a steady income and can begin saving for a car.

# Shopping

After working for 9 months, I have enough money to buy a car. Now all I have to do is find the perfect car in my price range.

# Beep Beep !!

My New Car!
